

Moor House School News and Events

End of Year Snow

November and December 2010

Starting on Monday 29th November and continuing through to the end of term on Friday 17th December, Moor House School students and staff experienced the coldest and snowiest weather on record for Hurst Green for at least the last ten years!

The week leading into December was the toughest week, with 30cm of the white stuff creating a deep snowy blanket over the entire local area. This caused some travel problems for staff and students, but unlike many other schools in Surrey, Moor House managed to stay open!

Wednesday 1st December will forever be remembered as the day of the Inter-House Snow Sculpture competition. After hastily arranged House Meetings, the students set about turning their icy ideas into real life.

Yellow House created an awesome ice fortress, with a fierce snowman standing guard to stop enemies for entering it. Meanwhile Blue House created a very impressive sculpture of ET.

Green House chose to build two sculptures - a scary ice dragon, and a fearsome ice dalek!

Not to be outdone, Red House decided to go for broke and create an igloo, which won the prize for best design. Unfortunately they did not have time to finish the roof though.

After hours in the snow it was great to return to the warmth of the school for hot chocolate.

Throughout the rest of the term there were many opportunities for snowball competitions, and the snow showers during both our Christmas Concerts gave a very wintry feel to the end of term.
