

SLCN Training Packages

Developmental Language Disorder (DLD), a subset of SLCN, is the term used to diagnose children when they fail to acquire their own language for no obvious reason.

The Moor House Research & Training Institute offers courses on Speech, Language and Communication Needs and related areas of SEN to schools delivered by our highly specialist and experienced multidisciplinary team.

“2 children in every classroom of 30 will experience DLD severe enough to hinder academic progress.”

(Norbury et al, 2016)

We cover the following training sessions locally and can devise training to suit your school requirements:

- » Supporting students with SLCN, especially Developmental Language Disorder
- » Developing speaking and listening skills
- » Developing attention and listening skills
- » Developing vocabulary and word knowledge
- » Developing sentence grammar: accuracy and complexity
- » Developing phonological awareness and literacy skills
- » Developing narrative skills
- » Developing social communication skills
- » Makaton (signs and symbols)
- » Developing foundation life skills with younger students
- » Strategies to maximise independence and improve life skills
- » Sensory strategies in the classroom
- » Handwriting
- » Supporting children with social, emotional and mental health needs
- » Stress management and emotional regulation for children and/or teenagers
- » Understanding what lies beneath the behaviour and what to do about it
- » Creative ways to help children and/or teenagers
